Work experience

Quality Services & Solutions Pvt. Ltd.

2023-12 - ongoing

Assistant Manager (IT)

- Managed a team of IT professionals to successfully develop and implement a tracking software for the process of sampling at multiple power stations, improving efficiency and accuracy.
- Led the design and development of an Employee Management System using Progressive Web App (PWA) technology, streamlining attendance marking and enhancing employee productivity.
- Collaborated with stakeholders to gather requirements, ensuring the software solutions met the specific needs of the organization.
- Implemented quality control measures to ensure the reliability and functionality of the tracking software and Employee Management System.
- Coordinated with cross-functional teams to ensure seamless integration of the software solutions into existing systems and processes.
- Maintained clear and concise documentation throughout the development process, facilitating ease of understanding and future enhancements.
- Communicated project updates and milestones to stakeholders in a clear and concise manner, avoiding technical jargon for better comprehension.
- Conducted thorough testing and debugging of the software solutions, promptly addressing any issues to ensure smooth operations.

Emortech Systems

2021-06 - 2021-09

Frontend Developer Intern

- Developed responsive and visually appealing product websites for multiple companies, ensuring a seamless user experience and driving increased customer engagement.
- Collaborated closely with the design team to revamp the company's website, resulting in a more intuitive and visually appealing interface that improved user satisfaction and retention.
- Optimized and fixed website performance issues, resulting in a 20% improvement in page load times and overall website speed.
- Utilized tools like PageSpeed Insights and Lighthouse to analyze website speed and identify areas for improvement, implementing optimizations such as image compression and code minification.
- Actively participated in code reviews and provided valuable feedback to improve code quality and maintain best practices.

CyberWorld Organization

2021-05 - 2021-06

Web Developer Intern

1. Designing and implementing user interfaces using HTML, CSS, and JavaScript.
